

Buried Alive

The last thing I recall were teardrops
Welling in my eyes
The ground I stood upon collapsing
As you said good-bye
You watched me fall away
I landed where I am today

Chorus: Trapped in the darkness, sunken in silence
 I'm paralyzed, buried alive
 Nobody but you can make a rescue
 I'm buried alive, buried alive in pain

You said you're young and need your freedom
I know what that means
Now, I'm crushed between the memories
And what was to be
So on my bed I lie
All day I sleep, all night I cry

(Chorus)

Bridge: I'm crying out your name
 I pray you'll have a change of heart, return my calls
 But hope is running thin
 That I'll see you again

(Chorus)
